SYLLABUSES FOR THE DEGREE OF BACHELOR OF ARTS IN URBAN STUDIES (BA[UrbanStud])

These syllabuses are applicable to candidates admitted under the 4-year ‘2012 curriculum’ to the first year of the Bachelor of Arts in Urban Studies in 2016-17 and thereafter.

Students entering the 4-year Bachelor of Arts in Urban Studies curriculum in the academic year 2016-17 and thereafter will take a professional core of 138 credits (including 120 credits of core courses and 18 credits of Faculty Foundation courses), 54 credits in language and Common Core courses and 48 credits of electives, totalling 240 credits for the 4-year curriculum.

Most courses are 6-credit courses, with the exception of the Urban Studies Studio I, Urban Studies Studio II, Advanced Urban Studies Studio I and Advanced Urban Studies Studio II which are 12 credits.

The syllabuses of the Bachelor of Arts in Urban Studies shall comprise the following requirements:

University Requirements

54 credits of compulsory University requirements which must be completed successfully:

| (i) One 6-credit course in Core University English; one 6-credit course in English in the Discipline; and one 6-credit course in Chinese language enhancement | 18 credits |
| (ii) 36 credits of courses in the Common Core Curriculum, comprising at least one and not more than two courses from each Area of Inquiry with not more than 24 credits of courses being selected within one academic year except where candidates are required to make up for failed credits | 36 credits |

1 Candidates who have achieved Level 5** in English Language in the Hong Kong Diploma of Secondary Education Examination, or equivalent, may at the discretion of the Faculty be exempted from this requirement and should take an elective course in lieu, see UG6 of the Regulations for First Degree Curricula.

2 Students are required to successfully complete the 6-credit Faculty-specific Chinese language enhancement course, except for:
   (a) Putonghua-speaking students who should take CUND9002 (Practical Chinese and Hong Kong Society) or CUND9003 (Cantonese for Non-Cantonese Speaking Students); and
   (b) students who have not studied Chinese language during their secondary education or who have not attained the requisite level of competence in the Chinese language to take the Chinese language enhancement course should write to the Faculty Office to apply to be exempted from the Chinese language requirements, and (i) to take a 6-credit Cantonese or Putonghua language course offered by the School of Chinese especially for international and exchange students; OR (ii) to take an elective course in lieu.

AR25/816
Faculty Requirements

18 credits of compulsory Faculty Foundation courses which must be completed successfully:

Professional Core of Urban Studies

First Year of Study

Year 1 students are required to take the University’s Common Core courses, language courses, Faculty Foundation courses and a core course to introduce students to the theories of urban and regional development

- Practical Chinese for Surveying, Urban Studies and Conservation Students (6 credits)
- Core University English (6 credits)
- 4 Common Core courses (24 credits)
- Introduction to Building Technology (Faculty Foundation course) (6 credits)
- Architecture and the Built Environment (Faculty Foundation course) (6 credits)
- Either one of the following: (6 credits)
  - Housing and Cities (Faculty Foundation course)
- Sustainability and the Built Environment (Faculty Foundation course)
- Urban and Regional Development I (6 credits)

Second Year of Study

Year 2 curriculum introduces students to the theories and methods of urban and regional development. The Urban Studies Studio will introduce students to project work and studio teaching and learning environment through problem-based learning projects and assignments and additional training in skills and methods. The Communication Studio will enable students to develop skills which is useful in their communication of urban issues and solutions with the
community. Students are required to take 12 credits of University Common Core courses to broaden their knowledge and English in the Discipline.

- English in the Discipline (6 credits)
- Communication Course for Built Environment Students (6 credits)
- 2 Common Core courses (12 credits)

- Urban and Regional Development II (6 credits)
- Urban Studies Studio I (12 credits)
- Communication Studio I (6 credits)
- Land Economics (6 credits)
- Introduction to Law (6 credits)
- Research Methods in Urban Studies (6 credits)

Third Year of Study

Year 3 curriculum further introduces students to the theories and methods of urban and regional development and urban policy and governance. It will also introduce students to urban planning and management. Further spatial analysis, planning and design skills will be developed in Urban Studies Studio and Communication Studio. They will also be taking research methodology course to develop their urban analysis skills. Students will take Elective courses from other departments and faculties to broaden their knowledge and develop multi-disciplinary perspectives.

- Urban Planning and Urban Management (6 credits)
- Urban Studies Studio II (12 credits)
- Communication Studio II (6 credits)
- Environment, Community and Design (6 credits)
- Introduction to Conservation (6 credits)
- Urban Policy and Governance (6 credits)

- 3 Electives (18 credits)

Final Year of study

In the Final Year, students will carry out capstone research projects that synthesize what they have learnt in the programme and further develop their understanding and analysis of issues of urban development through the two Advanced Urban Studies Studios.

They will continue to take Elective courses from other departments and faculties to broaden their knowledge and develop multi-disciplinary perspectives.

- Advanced Urban Studies Studio I (Capstone) (12 credits)
- Advanced Urban Studies Studio II (Capstone) (12 credits)
- Real Estate Investment and Finance (6 credits)
- 5 Electives (30 credits)
Course Offerings for Minors in Urban Studies

Students of other degree programmes intending to minor in Urban Studies must complete at least 36 credits among the courses listed below. Student must complete at least three Urban Studies courses (with the course code URBS) from the list.

- URBS1001 Urban and Regional Development I (6 credits)
- RECO2029 Land Economics (6 credits)
- URBS2004 Urban and Regional Development II (Prerequisite: Urban and Regional Development I) (6 credits)
- URBS3004 Urban Planning and Urban Management (6 credits)
- CONS1001 Introduction to Conservation (6 credits)
- ARCH3103 Environment, Community and Design (6 credits)
- URBS4003 Urban Policy and Governance (6 credits)
- RECO3029 Real Estate Investment and Finance (6 credits)

Double counting of credits is not permissible for minor in Urban Studies. When a course is used to satisfy the requirements of another curriculum or programme, it shall not be counted towards the fulfillment of the requirements of this minor.

Course Description

Year 1

**URBS1001 Urban and Regional Development I (6 credits)**

The course introduces students to basic theories for understanding cities. Drawing on multidisciplinary perspectives, students will learn relevant theories from urban sociology, public policy and political science, economics, design, geography, environmental management and planning.

Assessment: 30% continuous coursework assessment and 70% examination

**CAES1000 Core University English (6 credits)**

The Core University English (CUE) course aims to enhance first-year students’ academic English language proficiency in the university context. CUE focuses on developing students’ academic English language skills for the Common Core Curriculum. These include the language skills needed to understand and produce spoken and written academic texts, express academic ideas and concepts clearly and in a well-structured manner and search for and use academic sources of information in their writing and speaking. Students will also complete four online-learning modules through the Moodle platform on academic grammar, academic vocabulary, citation and referencing skills and understanding and avoiding plagiarism. This
course will help students to participate more effectively in their first-year university studies in English, thereby enriching their first-year experience.

Assessment: 65% continuous coursework assessment and 35% examination

**CEUC9001 Practical Chinese for Surveying, Urban Studies and Conservation Students (6 credits)**

The main objective of this course is to enhance the students' command of Chinese for the construction and surveying profession through basic training in presentation skills and in specific techniques for the preparation of target-oriented letters, proposals, plans and reports. This course also aims to develop students' ability to engage in negotiations, debates as well as critical and creative thinking. In order to promote artistic and aesthetic appreciation, thematic lectures and topical workshops on Chinese calligraphic and artistic representations will be conducted. Site visits to traditional Chinese temples, gardens and museums will be organized to provide students with opportunities to gain hands-on experiences of the inner dynamics of Chinese culture. Students will be able to acquire sophisticated Chinese language skills and knowledge of Chinese culture within the context of the discipline of construction and surveying.

Assessment: 50% continuous coursework assessment and 50% examination

**AFFC1201 Introduction to Building Technology (6 credits)**

This course provides the fundamental knowledge and concepts for functional design and construction of buildings. The aim of the course is to help students to explain why the building stands up, identify the function of essential elements and components of buildings, including the materials used and their installation methods.

A morphological approach will be used to explain the building elements and components. Students will learn how to read from drawings and sketches, and appreciate their practical application from site visits.

Topics will cover structural elements, building envelopes and services of buildings, including the materials and methods of their installation.

Assessment: 100% continuous coursework assessment

**AFFC1200 Housing and Cities (6 credits)**

The aim of this course is to develop students’ abilities to identify, describe and analyze critically the role and function of cities at different stages. In addition, students will be encouraged to correlate between city formation and various elements in urban development, particularly housing issues, in an increasingly globalized context. The course is explicitly interdisciplinary, and introduces recurrent and emerging debates about housing and the role and function of cities in the 21st century together with a parallel analysis of an increasingly complex matrix of social, political and economic issues as the pace of urbanization increases. Upon completion of the course students will have an appreciation of the complexity of urban issues in an increasingly urban world, and an appreciation of one of the major functions of cities - housing people.
Assessment: 100% continuous coursework assessment

**AFFC1027 Architecture and the Built Environment (6 credits)**

This course is an introduction to architecture and the Built Environment. Students will be exposed to the common basic knowledge of architecture as a built form as well as a discipline along with a multitude of the other forces that shape its development. Various themes are presented as a starting point to expand, navigate, and link different conditions and ideas of architecture. In addition, a broad spectrum of other aspects related to the field of study, including city and society, landscape and planning, culture and visual art, ecology and environment, as well as technology and material, will be discussed for increasing the awareness of architecture with our changing society.

Assessment: 100% continuous coursework assessment

**AFFC1028 Sustainability and the Built Environment (6 credits)**

The course examines the broad range of issues confronting mankind’s search for a sustainable future, such as: population & urbanization; transportation & logistics; technology & mobility; water; waste; energy; food; (natural) disasters; and community & governance. Through the perspective of contemporary and historical case studies students explore how people, in their visions of the future, have sought to perfect built environments as the setting for model communities.

The ideas raised in the lectures, reinforced through weekly readings and weekly tutorial sessions, are brought together at the end of the course with an intensive workshop, in which students look to define their own vision of a sustainable community. This course is intended to inspire thinking about the way we should construct our living environments in future, in order to find a sustainable balance.

Assessment: 100% continuous coursework assessment

**4 Common Core courses (24 credits)**

**Year 2**

**CAES9121 Communication Course for Real Estate & Built Environment Students (6 credits)**

This English-in-the-Discipline course is designed to help students to respond effectively to the communication demands of their studio programme. The focus is on raising students’ awareness of the genre of professional discourse by providing them with opportunities to enhance their linguistic range in their approach to cultural, real estate & built environment literacy.
Activities are organised through engagement in project-based discussion and written tasks designed to simulate the English Language demands on Surveying and Built Environment professionals.

The out-of-class learning component of the course will supplement the main aims by consolidating use of real estate & built environment business-related vocabulary and further enhancing students’ writing. Students will also become familiar with self-evaluation and with resources they can access to take responsibility to improve their own language skills in future.

Assessment: 100% continuous coursework assessment

**URBS2001 Urban Studies Studio I (12 credits)**

This studio enables students to apply and integrate the skills and knowledge learnt in the courses to case studies and projects in analyzing urban issues. Spatial analysis and planning skills will be developed in the studio, which will include emphasis on project planning, impact assessment, financing, and community engagement.

Assessment: 100% continuous coursework assessment

**URBS2004 Urban and Regional Development II (6 credits)**

The course further introduces students to basic theories for understanding cities. Drawing on multidisciplinary perspectives, students learn relevant theories from urban sociology, public policy and political science, economics, design, geography, environmental management and planning.

Assessment: 30% continuous coursework assessment and 70% examination

Pre-requisite: URBS1001 Urban and Regional Development I

**URBS2003 Communication Studio I (6 credits)**

Communication Studio I will introduce students to different methods and media in communicating their ideas with the community. These include report presentation, visual and multi-media presentation. It will also provide students with basic skills and techniques (in freehand drawing, photography, 2D and 3D CAD drawing, laser cutting, model making, Illustrator and Photoshop software) which allow the students to experiment with many of the issues and ideas introduced. Students will be responsible for individual projects which exhibit their grasp of the lecture topics.

Assessment: 100% continuous coursework assessment

**URBS2005 Research Methods in Urban Studies (6 credits)**

Introduction to the basic qualitative and quantitative methods used to analyze cities and regions, including qualitative methods, sampling, questionnaire design, statistics, and urban modelling.
Assessment: 30% continuous coursework assessment and 70% examination

**RECO2032 Introduction to Law (6 Credits)**

Legal framework of the HKSAR - the Basic Law and the HKSAR legal system; elements of the law of contract and tort; introduction to public law.

Assessment: 20% continuous coursework assessment and 80% examination

**RECO2029 Land Economics (6 credits)**

Location, trade and economic growth; the concept of rent and economic rent; producers’ location decisions; urban land markets; economic regions; land as a natural resource; money and interest theory; timing problems in the land conversion process; renovation and redevelopment cycles; land stock control; government land and housing policies; social costs and land rent dissipation.

Assessment: 20% continuous coursework assessment and 80% examination

**2 Common Core courses (12 credits)**

---

**Year 3**

**URBS3001 Urban Studies Studio II (12 credits)**

This studio enables students to apply and integrate the skills and knowledge learnt in the courses to case studies and projects in analyzing urban issues. Further spatial analysis and planning skills will be developed in the studio, which will include emphasis on project planning, impact assessment, financing, and community engagement.

Pre-requisite: URBS2001 Urban Studies Studio I

Assessment: 100% continuous coursework assessment

**URBS3004 Urban Planning and Urban Management (6 credits)**

This course reviews the processes and theories of urban development, urban planning, and the management of cities. It examines key issues and concerns in the management of cities such as spatial strategy, transport policy, infrastructure provision, environmental policy, development controls and urban sustainability.

Assessment: 30% continuous coursework assessment and 70% examination
URBS3003   Communication Studio II (6 credits)

This course will further introduce representation techniques and theories in urban development and planning. It will expand the fundamental relationships between dynamic urban development processes and methods in which they are understood, conveyed, and visually communicated. The course will cover a range of visual representation techniques from methods of mapping, illustrating time-based process, synthesizing bio-physical and human processes to depiction of proposed strategies and alternative futures. Students will be responsible for individual projects which exhibit their grasp of the lecture topics.

Assessment: 100% continuous coursework assessment

Pre-requisite: URBS2003 Communication Studio I

URBS4003   Urban Policy and Governance (6 credits)

The institutional structure and public administration of cities, including sectors such as housing and transport; the management and governance of mega-city region; public participation and engagement in urban management and governance.

Assessment: 30% continuous coursework assessment and 70% examination

ARCH3103   Environment, Community and Design (6 credits)

Environment, Community and Design are the three tenets of landscape architecture, and this course examines how landscape architecture can generate sustainable design responses that negotiate between communities and their environments. The course explores the social and behavioural aspects of landscapes through the understanding of community identify and self, neighbourhood, common ground and ownership of the public realm, environmental psychology and third place. The course will focus on developing design principles as they relate to cultural practices, social behaviour, and community building through the medium of landscape. Various approaches to community engagement and participation within the design process will also be introduced. The mode of assessment would be 100% continuous coursework assessment, comprising detailed case studies and research assignments, community mapping and design exercises with existing community groups in Hong Kong.

Assessment: 100% continuous coursework assessment

CONS1001   Introduction to Conservation (6 credits)

The purpose of conservation is to retain the values of a heritage place while extending its physical life. This course introduces the principles and practices of the heritage conservation field, including an introduction to the history and development of the field from its beginnings to today. The conservation process is explored, including the identification of heritage values and character-defining elements as well as the various conservation treatments. An overview of best practices contained in heritage charters, conventions,
recommendations and declarations is also addressed. Attention is given to the World Heritage Convention, the World Heritage List and the evolving concepts of authenticity and integrity.

Assessment: 100% continuous coursework assessment

3 Electives (18 credits)

Year 4

URBS4001 Advanced Urban Studies Studio I (Capstone) (12 credits)

Students will carry out capstone research projects that solidify and integrate their academic and practical understanding of urban issues and allow them to develop further skills and knowledge in their desired area with advanced urban analysis techniques, such as GIS and urban modelling.

Assessment: 100% continuous coursework assessment

Pre-requisite: URBS3001 Urban Studies Studio II

URBS4002 Advanced Urban Studies Studio II (Capstone) (12 credits)

Students will further carry out capstone research projects that solidify and integrate their academic and practical understanding of urban issues and allow them to develop further skills and knowledge in their desired area with advanced urban analysis techniques, such as GIS and urban modelling.

Assessment: 100% continuous coursework assessment

Pre-requisite: URBS4001 Advanced Urban Studies Studio I

RECO3029 Real Estate Investment and Finance (6 credits)

Interactions between space and asset markets; financial economic concepts and tools for real estate analysis; real estate valuation and investment analysis at property and business levels; leverage and mortgages; statistical modelling and forecasting; price indices and derivatives; real options and land value.

Assessment: 40% continuous coursework assessment and 60% examination

Prerequisite: RECO2029 Land Economics

5 Electives (30 credits)
Elective courses

Students can choose to take courses offered within or outside the Faculty.
